The average salary for women is **18.1%** **lower**, i.e. **–€1,010**

compared with men for a full-time equivalent in the private sector.

Sources: Caisses sociales de Monaco, Monaco Statistics

Full-time equivalent (FTE) salary is a salary converted to a full-time basis over a full year, based on the legal benchmark of 169 hours per month in Monaco, regardless of the actual volume of paid work performed. To calculate the average FTE salary or its distribution, all positions, including part-time jobs, are taken into account on a pro-rata basis according to their actual volume of paid work.

Gross salary corresponds to the total amounts received by employees under their employment contract, including bonuses, before any deductions of mandatory employee social security contributions and levies.
