Construction Noise Control
Industrial Noise Control
Vehicular Noise Control

Industrial Noise Control

All factory premises shall abide by the maximum permissible noise limits set by NEA under the Environmental Protection and Management (Boundary Noise Limits for Factory Premises) Regulations. The noise limits become progressively more stringent when the affected premises require more peace and quiet, as well as during the evening and night. For instance, the equivalent continuous noise level from factory premises affecting residential premises must not exceed the noise limit of 70 dBA over any 5-minute period between 7am to 7pm, and must not exceed 65 dBA between 7pm to 11pm.

Boundary noise limits for factory premises

Types of affected premises	Maximum permissible noise levels (reckoned as an equivalent continuous noise level over the specified period) in decibels (dBA)		
	Day (7am-7pm)	Evening (7pm-11pm)	Night (11pm-7am)
Noise Sensitive Premises	60	55	50
Residential Premises	65	60	55
Commercial Premises	70	65	60

Types of affected premises	Maximum permissible noise levels (reckoned as an equivalent continuous noise level over 5 minutes) in decibels (dBA)		
	Day (7am-7pm)	Evening (7pm-11pm)	Night (11pm-7am)
Noise Sensitive Premises	65	60	55
Residential Premises	70	65	60
Commercial Premises	75	70	65
Factory Premises	75	70	65
