Information

This dataset provides a count of home Civil Service employees. It excludes the Northern Ireland Civil Service, other Crown servants and employees in the wider public sector, for example, employees of Non-Departmental Public Bodies (NDPBs) and the National Health Service (NHS).

Headcount statistics are based on the number of employees with an employment contract who are being paid by the organisation. Employees can be permanent, on a fixed-term contract or employed on a casual basis. Self-employed, contract workers and agency workers are excluded. Employees not on the payroll and not being paid during the reference period are also excluded, for example, those on unpaid maternity leave, unpaid sick absence and career breaks.

Data availability

Figures are for Persons. Data are available for areas in United Kingdom, overseas or unknown between 2008 and 2018.
