ACRA Information on Corporate Entities

ACRA (Accounting and Corporate Regulatory Authority)

This collection provides datasets of registered entities in Singapore. Updated monthly, it is organized into 27 CSV files, one for each letter in the alphabet, and an 'others' dataset. This resource is designed for efficient exploration and analysis by businesses, researchers, and policymakers. Note: A significant number of columns have been removed in consideration of Section 12(2A) of the Companies Act which apply to gazetted companies. This is a more detailed version of the UEN dataset here (https://data.gov.sg/collections/1/view).

Sample OpenAPI query

This code can be used to test a sample API query. It retrieves the metadata for this collection. For a complete guide on query parameters and syntax, please refer to the API documentation. Try it out on your browser to see the response schema.

Adding an API key gives you higher rate limits and priority support. Log in to create your API key.

Python Copy

```python
import requests

collection_id = 2
url = "https://api-production.data.gov.sg/v2/public/api/collections/{}/metadata"

response = requests.get(url)
print(response.json())
```
