Individual - Taxes on personal income

Last reviewed - 08 September 2026

In principle, subject to relevant tax treaty provisions, income tax is payable by all individuals earning income in Greece, regardless of citizenship or place of permanent residence. Permanent residents are taxed on their worldwide income in Greece.

Personal income tax (PIT) rates

Income tax depends on the source of the income (e.g. employment, rental) and is calculated accordingly.

The general tax scale applying to employment income, pensions, and business profits is illustrated below. It is to be noted that, based on the provisions of Law 5246/2025, lower tax scales apply according to the number of children and the age of the individual (younger than 30 years old).

Income tax scale (salaries, pensions, and business profits)

Amount of income (EUR*)	Tax rate (%)	Corresponding tax (EUR)	Total income (EUR)	Total tax (EUR)
First 10,000	9	900	10,000	900
Next 10,000	20	2,000	20,000	2,900
Next 10,000	26	2,600	30,000	5,500
