Notes

When a methodological change occurs, a break in series is displayed.
More information about these figures is available by clicking on each indicator.

(1) - The year presented corresponds to the last year of the pair of academic years.

(2) - From 2014 (inclusive) includes the new Local Housing units and the housing tourism and rural area tourism establishments.

(3) - Includes mobile medicine depots.

(4) - The values presented refer to the municipality of residence of the mother (not that of the child's birth).

(5) - The values presented include enterprises, sole proprietors and the self employed. They exclude insurance and financial activities, Public Administration and Defence and Compulsory Social Security.

(6) - The figures presented between 2021 and 2024 were revised by INE as part of the revision of the Resident Population Estimates, released by the entity on June 22, 2026.

Symbology

⊥	Series break	Pro	Provisional value
